

technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 500 per survey.

Estimated Number of Respondents: 500 per survey.

Frequency of Response: Twice in three years.

Estimated Total Annual Hour Burden: 1,500 hours.

Estimated Total Annualized Cost Burden: \$30,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1793.01 in any correspondence.

Agency Information Collection Activities Under OMB Review; New Source Performance Standards for the Surface Coating of Plastic Parts for Business Machines

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C.

3501 *et seq.*), this notice announces that the Information Collection Request (ICR): has been forwarded to the Office of Management and Budget (OMB) for review and approval: Standards of Performance for Surface Coating of Plastic Parts for Business Machines (NSPS Subpart TTT), OMB Control Number 2060-0162, expiration date: 4/30/97. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before May 12, 1997.

FOR FURTHER INFORMATION OR A COPY

CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1093.05.

SUPPLEMENTARY INFORMATION:

Title: Standards of Performance for the Surface Coating of Plastic Parts for Business Machines (OMB Control No. 2060-0162; EPA ICR No. 1093.05), expiring 4/30/97. This is a request for an extension of a currently approved ICR.

Abstract: Industrial surface coating operations emit volatile organic compounds (VOCs) in quantities that the Administrator believes cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Consequently, New Source Performance Standards for the surface coating of plastic parts for business machines were promulgated. VOC emissions from these facilities are the result of operation of the spray booths that apply prime coats, color coats, texture coats or touch-up coats. The standards ensure that owners or operators of these facilities use coatings that contain a low proportion of VOCs, and coating application equipment that provides a high transfer efficiency. In addition, or as an alternative, sources may use control equipment to meet the emission limits. In order to ensure compliance with these standards, adequate recordkeeping is necessary. In the absence of such information, enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August

30, 1996 (61 FR 45959). No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 6 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

- *Respondents/Affected Entities:* Industrial surface coating companies that process plastic parts used in the manufacture of business machines.

Estimated Number of Respondents: 41.

Frequency of Response: Initial, Quarterly, Semi-Annually.

Average Hours per Response: 6 hours.

Estimated Total Annual Hour Burden: 3639 hours.

Estimated Total Annualized Cost Burden: 0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1093.05 and OMB Control No. 2060-0162 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW., Washington, DC 20460. and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

Dated: April 7, 1997.

Richard T. Westlund,

Acting Director, Regulatory Information Division.
